

Available Services

Now YOU have a choice!

It's common knowledge that most of the security officers in Central Indiana have worked for several different security guard companies.

Great officers are often overlooked by other companies and are not given the level of responsibility they deserve. Trinity looks for officers of high-caliber, trains them and assigns duties and responsibilities based on their experience and skills.

Our officers are classified based on their skill sets

All officers have passed a background check and submit to random drug testing. No officer employed by Trinity has ever been convicted of a felony crime or misdemeanor crime involving moral turpitude in the past five years.

Assets Protection

Theft of merchandise is a problem faced by every retailer. Statistics prove that internal theft parallels external theft dollar to dollar. Regardless, theft accounts for billions of dollars in losses for retailers nationwide.

Since 1995, Trinity Executive Services, Inc. has provided trained undercover Loss Prevention Officers to a wide variety of businesses serving several different industries. Our Loss Prevention Program has been proven efficient and cost effective. Through product recovery and civil restitutions (with management approval) the value of our loss prevention program typically surpasses the annual cost of the program. Years of experience have proven our worth to the retail industry. Nearly 100% of the retailers we serve see a significant reduction in criminal activity at their stores and a gradual decrease in the number of apprehensions – due in part to the public's knowledge that we are watching.

Banking & Financial Institutions

Research and reports by the FBI and similar agencies conclude that a large number of bank robbers typically observe a bank for several days before committing the robbery. In addition, bank robbers will generally chose a target of least resistance. Thus banks and financial institutions that use armed security are less likely to fall victim to a bank robber(s).

Trinity Executive Services, Inc. employs the quality and caliber of officer best suited to serve as a visual deterrent in a bank environment. Many of our officers are former law enforcement officers, while an equal number also served in the military. All of our officers are well-trained in the use of their firearm and the legal definition of deadly force. More importantly our officers are taught to be observant and to recognize signs and indicators that often precede a violent confrontation. Proper training is key to preventing a confrontation and ensuring a safe and pleasant environment for bank staff and clients alike.

Construction Sites

Construction sites are often the target of criminal acts such as theft and vandalism, resulting in major damages and financial loss to management and contractors. Failure at construction sites to properly control entry/access creates unnecessary liability exposure. Even those not intent on committing a crime, such as teenagers and vagrants, who become injured at the site, may be eligible for financial compensation as a result of their injuries.

Trinity Executive Services, Inc. is well versed in construction site security and its inherent risks and hazards. For nearly 20 years, we have successfully provided these services to construction sites throughout Central Indiana.

Solutions for Every Business in Every Industry

If you do not find your business or industry listed to the right, please contact us at (317) 890-1169. Our professional and capable staff will be able to discuss with you additional services that may not be outlined in this sales packet.

With our free evaluation of your business, we can determine the most dependable, progressive and efficient security solution to meet your specific needs & every budget.

Training to Meet Your Demands

Our staff will meet with you to develop a Standard Operating Procedure (SOP) for your business or site. We will then train and prepare our officers based on this SOP.

Manufacturing & Industrial Facilities

Manufacturing and industrial facilities and complexes are often the target of criminal acts such as theft, vandalism and unlawful entry, resulting in major damages and financial loss to owners and managers. Industrial Security is defined as “the portion of internal security which refers to the protection of industrial installations, resources, utilities, materials, and classified information essential to protection from loss or damage.” This same type of security can also be applied to manufacturing facilities by either an internal or external security force.

The professional staff of officers employed by Trinity Executive Services, Inc. is well versed in providing the types of services required by both manufacturing and industrial facilities.

Residential (HOA) & Apartment Communities

Residential neighborhoods and apartment communities present a unique set of challenges for assigned officers. While the goal of a security officer is to uniformly enforce rules and regulations, he or she must also strive to create a positive working relationship with home owners and tenants. Officers must be able to adapt to and respond accordingly to a wide range of requests and calls for assistance and possess a superior level of communication and customer service skills. Assigned officers must know how to deal with simple calls such as noise complaints to domestic violence and more serious types of crimes. Security officers must understand when to involve the police and how to properly document every incident on an incident report form.

While most of the officers employed by Trinity Executive Services are capable of providing the services described above, our management team insists on hand-picking the best officers for your unique location. Through detailed observations of the officers assigned to your community, our management team will carefully evaluate and select the very best officers for consistent staffing within your community. We're confident our process will help to ensure that you, your staff and tenants receive the very best officers for your unique security needs.

Traffic Control & Parking Enforcement (Schools, Garages & Other Locations)

Trinity Executive Services, Inc. provides uniformed and highly visible traffic control officers to schools, churches, construction sites, utility companies and other businesses and locations with a high volume of traffic flow or congestion. All of our traffic control officers will report for duty each day with all of the tools and equipment necessary to safely direct traffic in and around your place of business. From standard flashlights, reflective vests and stop signs - to fully marked patrol cars and external lighting, our staff takes the necessary steps to ensure our officers are seen by motorists. In addition, all of our traffic control officers complete a mandatory training program before being assigned to our traffic control division. This training program teaches our officers how to properly use the tools they are provided with, as well as proper use of hand gestures and knowledge of Indiana Motor Vehicle Laws.

Retail Outlets and Shopping Centers

Our experienced management team will design a customized security program to match any budget. You will not find a security company as committed to your needs as Trinity Executive Services, Inc. We consider customer service and community relations our top priority for shopping center security. Our security officers will take the time to get to know your tenants, their employees, and their clientele. We will work hard to address any security concerns and help provide a safe shopping environment. Some of the services we commonly provide to shopping centers are

- On-Site Security Officers
- Loss Prevention/Assets Protection
- 24-Hour Security Dispatch Center
- 24-Hour Random Patrol Services
- 24-Hour Security Patrol & Parking Enforcement Staff
- Warn, Immobilize or Tow Violating, Abandoned or Inoperable Vehicles
- Parking Sign Installation and Maintenance

Trinity Executive Services, Inc. is well versed in retail security and customer service. For nearly 20 years, we have successfully provided security services to retail outlets and shopping centers throughout Central Indiana.

Supermarkets & Convenience Stores

While supermarkets and convenience stores are often the target of both internal and external theft, they are equally targeted for armed robberies. Other less publicized crimes in and around supermarkets and convenience stores involve: fake slip and fall accidents, check fraud, credit card fraud, vehicle thefts, purse snatching and assaults.

Officers assigned to your store by Trinity Executive Services, Inc. will act as a visual deterrent, which has been proven successful in reducing the level of crime at most of our current client locations. Officers will also serve to reduce the store's liability by bringing to the attention of employees potential hazards such as: spills, inoperable lights and damaged equipment.

Trinity Executive Services, Inc. is well versed in supermarket and convenience store security. Our first client in 1994 was a supermarket chain that continues to use our services throughout Central Indiana.

Other Clients & Industries We Serve

The list of companies, businesses and industries we serve is too broad to outline in this sales packet. Although your business type or industry may not be listed or mentioned in this packet, it can be safely assumed that our staff is competent in the unique security services you may require. Please feel free to contact anyone on our management team at (317) 890-1169 with questions or requests.
